Welcome to Gwinnett Medical Center-Lawrenceville

As our flagship, Gwinnett Medical Center-Lawrenceville is more than just a full-service hospital that features the latest in technology and treatments. It’s another example of how we’re transforming healthcare.

One example of that commitment is our new patient tower. With eight stories of the latest technology, it’s a shining model of the right way to expedite the healing process for every patient we treat. Features include new spacious patient rooms and family suites, free wireless Internet and guest retreats.

We offer a wide array of nationally recognized and renowned services that include:

- Level II Trauma Center
- Children’s Emergency Center
- Specialty care, including the Center for Orthopedics, the Center for Neuroscience and the Gwinnett Women’s Pavilion
- State-of-the-art surgical services, including Single Incision Laparoscopic Surgery
- Comprehensive outpatient services that meet your needs without requiring an overnight hospital stay

Thank you for choosing Gwinnett Medical Center-Lawrenceville.

Gwinnett Medical Center campuses are smoke-free, because we care about the health of our patients, visitors and staff.
